

Surgical Technology Program

School of Health Sciences

CSN
COLLEGE OF
SOUTHERN NEVADA

Thank you for your interest in the Surgical Technology Program. At Nevada's largest college you will be exposed to state-of-the-art facilities. And CSN takes pride in the fact that many of our instructors have real-world experience creating a unique learning atmosphere for your future in the Surgical Technology Program.

This accredited program* trains students for the vital role of Surgical Technologist where their job is to maintain aseptic technique and sterile conditions during surgery. The Surgical Technologist must be able to perform under stressful and emergency situations, have considerable patience, possess a strong sense of responsibility and concern for order, must work quickly, must be oriented to detail, and must be sensitive to the needs of the patient and other members of the surgical team.

By designing classes small, CSN provides the one-on-one attention you need to help ensure you have the tools to successfully complete this program.

Please read through this brochure to help direct you in your next step in Surgical Technology.

The Surgical Technology Program offers both a Certificate of Achievement and an Associate of Applied Science Degree.

*Accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Accreditation Review Committee on Education in Surgical Technology
