 EPY 303 Educational Psychology - 4 credits
 PHIL 302 Intermediate Reasoning and Critical Thinking - 3 credits
 PHIL 311 Biomedical Ethics - 3 credits

Further Information

Additional information on the Bachelor of Science Degree in Dental Hygiene can be obtained at <http://www.csn.edu/health/>

DH B01

Students may elect to graduate using the degree requirements in effect at the time of matriculation, or when they declared or changed major or the current catalog. If a program is official after a student has matriculated, the student may choose the degree requirements of the new program. In no case may a student use a catalog which is more than six years old at the time of graduation.

BACHELOR OF SCIENCE DEGREE

The Bachelor of Science Degree in Dental Hygiene will prepare dental hygiene professionals for enhanced roles and responsibilities within the emerging profession. The curriculum is designed to introduce students to the expanding role of dental hygienists in public health and education. Graduates of the Baccalaureate program will be qualified for an array of challenging career opportunities in public health, administration, research, management and related fields.

The Bachelor of Science Program allows associate degree students and licensed dental hygienists the opportunity to build upon their current knowledge, enhance their current professional role and advance to broader careers to meet the growing public health and education needs.

Studies can be undertaken on a full time or part time basis. All courses are offered online, in order to provide flexibility for each student's busy schedule.

This is a limited entry program. All students must satisfy the NSHE Nevada History requirement.

STUDENT LEARNING OUTCOMES - Graduates of this program will have the opportunity to

- Demonstrate the ability to acquire and synthesize information in a critical, scientific and effective manner.
- Demonstrate the ability to interact with other health professionals to provide educational services and strategies that promote and advance the health of the public.
- Demonstrate the ability to serve in roles and assume responsibility for health promotion and disease prevention activities for diverse populations by involvement in education and public health programs.
- Demonstrate the ability to contribute to the advancement of the dental hygiene body of knowledge and/or conduct research.
