

Article 12 - Academic Leadership Roles

This article includes a description of the responsibilities and the compensation structure for the academic leadership roles that may exist within an academic department. These roles include Department Chair, Assistant Department Chair, Program Director and Lead Faculty. Faculty will be contracted for only one Academic Leadership position at a time. Exceptions for extenuating circumstances must be approved by the Vice President of Academic Affairs prior to offering a contract consisting of multiple Academic Leadership positions at a time.

The Academic Leadership Role, assigned bargaining unit member, and the final allocation of release time will be published and kept updated online on the Faculty Infobook website and on a page linked from the Vice President of Academic Affairs webpage. Academic Leadership Role job descriptions will be published and kept updated on the Faculty Infobook website and linked from the Vice President of Academic Affairs webpage.

Program Director

Section 1. Job Description

A. It is the responsibility of the Dean to provide the approved descriptions of the responsibilities that accompany Program Director reassigned time, and to ensure faculty who accept Program Director reassigned time are aware of these responsibilities. The responsibilities and expectations must be provided in writing to the faculty member as Program Director status is being assigned and accepted.

B. The Program Director role is a subject matter expert (SME) that is responsible for the day-to-day coordination functions of the program, while assisting the Department Chair and Dean in the program activities, events, and operations. The Program Director assists with the development of the course schedule for the program, including classes and labs. The Program Director plays an active role in faculty and staff recruitment, and training. This position works with students, other faculty, other program directors, the school Dean, classified staff, professional staff, college Vice-Presidents, college President, and community stakeholders/leaders.

Section 2: Major Responsibilities

A. Assist the department chair in managing the day-to-day operational aspect of the program.

B. Analyze programmatic needs and ensures program alignment with industry standards and accreditation standards, meeting all standards as outlined by accrediting bodies.

C. Recruit, screen, and recommend the hiring of part-time faculty to the Department Chair. Supervises and evaluates part-time faculty and student workers as needed and as delegated by the Department Chair.

- D. Assists the Chair with day-to-day supervision of part time faculty.
- E. Provides program budgetary oversight but might not be the account manager. (Lab fees and other program budgets are provided to the Program Director every semester by the Department Chair).
- F. Provides support to the Department Chair in day-to-day activities, addressing program/department specific matters and concerns, procurement, and representing the Chair in meetings as necessary.
- G. Actively supports faculty development for both full and part-time personnel, monitoring communication protocols, while maintaining and reviewing part time faculty credentials.
- H. Actively participates in curriculum development and review, while reviewing and adopting textbooks.
- I. Serves as liaison between students and the program/department to address student concerns and guides students on programmatic requirements. Serves as student advisor for the affected program.
- J. Leads the daily operational aspects of the program and its facilities and equipment.
- K. Meet with internal and external constituents, representing the department/program to key stakeholders and advisory boards.
- L. Participates in grant development and writing as required.
- M. Assists Department Chair in monitoring effectiveness of curriculum and facilities of the program/department while assisting the department in unit planning, strategic planning, and accreditation efforts.
- N. In conjunction with the Department Chair provides support for post-semester activities, including ongoing student recruitment.
- O. Develop program protocols and procedures for safety of students within program courses and labs. Monitor all aspects of safety.
- P. Demonstrates a commitment to diversity, equity, and inclusion.
