\*\* Effective October 30 - January 9, 2014, customers can receive a minimum \$100 trade-in value for an eligible smartphone when they buy their new smartphone on AT&T Next. Customers can use their \$100 trade-in value toward the purchase of new accessories, a connected tablet, or pay their wireless service bill. The trade-in promotion value may not be used to reduce the AT&T Next installment payments. The value may be used towards applicable sales tax which must be paid at the time of sale. The trade-in offer is only available for new activations or upgrade eligible customers who purchase a new smartphone with AT&T Next. This is not an early upgrade offer. There is a limit of one promotional trade-in offer per AT&T Next purchase, and a limit of two financed devices per wireless account. The trade-in device must be a smartphone manufactured within the last three years. The smartphone trade-in device must be in good working and physical condition to be eligible for the minimum \$100 value. Visit an AT&T local store for additional details.
