

HOUSEHOLD HAZARDOUS WASTE

The College of Southern Nevada cannot accept household hazardous waste for disposal. However, most local communities and/or counties have programs for collection of household hazardous waste. Typical wastes accepted (not all are listed here) include:

- Adhesives, coatings, and sealers
- Auto fluids and oil filters
- Cleaners and aerosols
- Concrete and driveway sealants
- Fluorescent bulbs
- Household batteries
- Paints and solvents
- Pesticides and fertilizers
- Photographic, pool, and lab chemicals
- Various electronics, computers, phones, etc.
- Varnishes, shellacs, and stains

Republic Services provides free household hazardous waste disposal for residents of Clark County. To find out more about Household Hazardous Waste Programs in your area, visit the following websites:

- [Handling Hazardous Household Waste](#)
- [Avoiding the Danger Zone: How to Handle Household Hazardous Waste in Your Home](#)
- [Republic Services Household Hazardous Waste Calendar](#)
- [Where can I Recycle & Take My Waste?](#)

Note: Clark County Residents must have photo ID and be either a direct residential customer (bring bill) or an indirect residential customer (live in a rental unit complex that contracts residential service).

Items typically not accepted for disposal at a household hazardous waste program may include:

- Asbestos
- Biological waste
- Medicines and prescriptions
- Ammunition and explosives
- Wastes generated from commercial businesses
- Unknown or unlabeled materials
- Electronics, appliances, and furniture
- Incandescent light bulbs
- Liquid mercury and mercury containing articles
- Tires

Please contact EH&S at 702-651-7445 or ehs@csn.edu if you have any questions.
